FROM: Doug Bowman  
Legislative Officer, OCA

SUBJECT: JFK Assassination Documents Originated in  
Congress

(26 June 1994)

1. This responds to your memos of 16 July, 16 August, and 23 August 1993, asking that we seek congressional approval of the release of the attached JFK Assassination documents to the National Archives and Records Administration (NARA). (The document lists attached to your memos are at Tab A, documents originated in the House are at Tab B, those originated in the Senate are at Tab C.)

2. We provided the documents to Mr. Charles Howell, Chief Counsel of the House Committee on House Administration, and Mr. Britt Snider, Chief Counsel of the Senate Select Committee on Intelligence, who are authorized to speak for the House and Senate on this matter. After reviewing them, Messrs. Howell and Snider determined that there was no congressional objection to public release of any of these documents.

3. If you have any questions, or if we may be of further assistance, please contact me at 37914 (secure).

MEMORANDUM FOR: Doug Bowman  
Legislative Officer, OCA

FROM: John Carver  
Historical Review Group/CSI

SUBJECT: Documents Discovered in CIA's JFK  
Assassination Records For Which We  
Need the Approval of Congress Before  
Releasing Them to NARA

1. In accordance with the John F. Kennedy Assassination Records Act of 1992, the Historical Review Group of the Central Intelligence Agency has the task of declassifying CIA's documents sequestered during the investigations by the House Select Committee on Assassinations in 1976-78.

2. In the course of our processing, we have identified nine copies of documents which originated in or are the property of the U.S. Senate or the U.S. House of Representatives, and which are separate from the documents originated by the House Select Committee on Assassinations. Our normal procedure for handling documents under the third agency rule is to make copies of another agency's documents available to that agency for its own review, after which we reintegrate those documents in our files at the point where they were discovered and then release, sanitize, or deny as prescribed by the third agency.

3. Documents belonging to Congress fall into a special case, as the third agency rule cannot properly apply. We ask, therefore, that you show these nine documents to the appropriate people on the Hill--in essence, coordinate them with Congress on our behalf--and ask them to indicate in some fashion, on the documents themselves or in a separate message, their agreement (or objection) to our release of these documents to National Archives, as required by the Act.

4. You will note that the letters from Senator Inouye and from the Senate Select Committee on Intelligence are the only two of these documents whose originators remain on the scene in today's Congress.

Records for Which We Need the Approval of Congress  
Before Releasing Them to NARA

5. We judge that the letter from a private citizen to the British Ambassador, which later found its way to Senator Hayakawa's office, does not require the normal protection on foreign policy grounds.

6. Thanks for your help.

REF.: My memos to you of 16 July and 16 August

1. Here are five more documents--one from the Senate and four from the House--which we have identified in our final inspection of the files before sealing them for delivery. We trust these will be the last, but one never knows.

2. Could you once more show these five items to the appropriate officials on the Hill and ask them to indicate whether they agree to our releasing them to National Archives, as required by the Act?

3. Thanks. We hope this winds up this phase of the job.
